

Oct 2015

I consider "American Orthotic" as my extended family.

Their care for 15 years has made an extreme difference in the quality of my life. The difference between walking and spending my life in a wheelchair.

Christi doesn't just answer the phone she listens and cares.

Jackie has shown me kindness and concern from day 1. She strives as a friend would to meet my needs.

Michael works with me to find solutions to keep me walking correctly. Supports me emotionally and instills in me the confidence to accomplish whatever I need to do.

Although I am an amputee I feel that it is because of Michael's care that I live as normal and independent life as I do.

Thank you Michael
